COVID-19 Testing Options

If you need to receive a COVID-19 test because you have had an exposure to someone who tested positive with COVID-19 or are experiencing symptoms related to the COVID-19 virus this document can be used as a resource in finding a testing facility.

There is currently high demand for testing and a limit to the number of tests each pharmacy can support so it is not uncommon for a facility to have a 2-3 day waiting period for an appointment or for there to be a shortage of available tests on hand at facilities and pharmacies in our community. CUSD does not have the ability to make or change an appointment for you, nor does CUSD have the ability to change the policies, procedures or appointment schedules of any of these facilities.
