## Purpose and Description

Briefly describe the purpose of this plan (Select from Schoolwide Program, Comprehensive Support and Improvement, Targeted Support and Improvement, or Additional Targeted Support and Improvement)

Schoolwide Program

Briefly describe the school's plan for effectively meeting the ESSA requirements in alignment with the Local Control and Accountability Plan and other federal, state, and local programs.
The purpose of the School Plan for Student Achievement is to provide a comprehensive document, including details of site planned actions and expenditures as they relate to the goals of Clovis Unified School District. The plan supports student outcomes and overall performance in connection with the District's Local Control and Accountability Plan and in alignment with the district goals supporting the expectations that all goals shall have objectives that are measurable, actionable, and develop monitoring metrics to assess progress that guides program evaluation and resource allocation.

## Comprehensive Needs Assessment Components

## Data Analysis

Please refer to the School and Student Performance Data section where an analysis is provided.

## Surveys

This section provides a description of surveys (i.e., Student, Parent, Teacher) used during the schoolyear, and a summary of results from the survey(s).
The following surveys are administered annually:
*SART- School Assessment Review Team
*Student body ELCAP survey
*CUSD school climate assessment
*English Learner needs assessment Survey
*Native American Education Survey
*Parent LCAP survey
After reviewing the surveys listed above, Freedom saw a need to increase the amount of time students receive targeted interventions. There is a need to use these intervention teachers to target not only our lower acheiving students, but also the students in our focus groups where we saw the largest gaps.

## Classroom Observations

This section provides a description of types and frequency of classroom observations conducted during the school-year and a summary of findings.
As per CUSD Board Policy 6211Clovis Unified Board Policy \#4315 and ED CODE \#44664 require that all certificated teachers are evaluated on a regular bases. Informal and formal classroom observations occur throughout the school year. Administrators from both the site level and the district level regularly communicate their findings with the classroom teacher. The findings are used to illustrate best practices that can be replicated in other classrooms across the site and district. Site administrators also use this as an opportunity for teachers to learn from one another by observing each other within the classroom setting. The observation process also allows site administrators to use corrective feedback, provide coaching and to provide additional supports in specific areas of growth opportunities based on each individual teachers needs.

Common findings for growth opportunities include:
Behavior management
Classroom management
Articulation of Learning Objective
Frequency of Checking for Understanding
Differentiated Instruction
Frequency of Academic Conversation

## Analysis of Current Instructional Program

The following statements are derived from the Elementary and Secondary Education Act (ESEA) of 1965 and Essential Program Components (EPCs). In conjunction with the needs assessments, these categories may be used to discuss and develop critical findings that characterize current instructional practice for numerically significant subgroups as well as individual students who are:

- Not meeting performance goals
- Meeting performance goals
- Exceeding performance goals

Discussion of each of these statements should result in succinct and focused findings based on verifiable facts. Avoid vague or general descriptions. Each successive school plan should examine the status of these findings and note progress made. Special consideration should be given to any practices, policies, or procedures found to be noncompliant through ongoing monitoring of categorical programs.

## Standards, Assessment, and Accountability

Use of state and local assessments to modify instruction and improve student achievement (ESEA)
A variety of tools are used to measure and monitor academic progress at our site and within our school district. Assessments are designed to provide staff with data so that instruction can be modified to meet individual needs, to monitor student achievement and to assess the school's overall success. Some examples of the assessments that we utilize include:
*SBAC
*ELPAC
*iReady
*iCAL
*iCAM

Use of data to monitor student progress on curriculum-embedded assessments and modify instruction (EPC)
Teachers use the data collected from these assessments to chart progress and design an appropriate instructional program for all students. Individualized or classroom specific materials can then be produced using to address the identified academic need. The data is analyzed in PLC's where it is then used to help guide further instruction.

In addition, all students who have not meet proficiency standards are carefully evaluated for academic deficiencies and may be recommended for additional support either through the alter/before school Extended Day labs; supplemental instruction provided by Push-In Teachers, Instructional Aide/Tutors, BIAs (Instructional Aide-Bilingual); or classroom interventions. Instruction is targeted to the identified need. The Principal and GIS/Resource Teacher support, train, and provide resources necessary to assist teachers in the process.

## Staffing and Professional Development

Status of meeting requirements for highly qualified staff (ESEA)
Teachers who are appropriately credentialed have a deep understanding of the content they teach, have been trained in a variety of instructional strategies, and are in the best position to aid our students in reaching academic proficiency in their content areas.

All teachers on our campus hold an appropriate CTC credential, permit, or other document equivalent to that which a teacher in all other public schools would be required to hold. Those teachers that are in the status of seeking to complete their credentials (PIPS, STIPS and Interns) are in a program that will allow staff to meet the requirements needed in a timely manner. These staff members are supported by site and district administration for appropriate completion. An equivalent credential, permit, or other document would mean that the teacher has the appropriate authorization for their assignment.

All paraprofessionals whose duties include instructional support must meet the criteria as outlined in CUSD to be considered Highly Qualified to assist students.

Sufficiency of credentialed teachers and teacher professional development (e.g., access to instructional materials training on SBE-adopted instructional materials) (EPC)
All teachers receive site and/or district professional development on curriculum, instruction, and assessment throughout the year.

Alignment of staff development to content standards, assessed student performance, and professional needs (ESEA)
CUSD provides professional development for all school sites that are aligned with the needs of the schools, academic content standards, social emotional supports, and more. The district provided professional development for this school include--Tiered Writing Supports aligned to the Common Core writing standards, AVID training around WICOR that is utilized across content areas, Teaching Pyramid aligned to meet behavior needs in our primary classrooms, Science training aligned to NGSS, iReady training aligned with our district adopted curriculum and the Common Core standards in both math and reading.

Ongoing instructional assistance and support for teachers (e.g., use of content experts and instructional coaches) (EPC)
Teachers have access to a variety of different sources of professional development both on and offsite. CUSD Teachers On Special Assignment (TOSA) provide professional learning sessions along with co-teaching opportunities and in-class coaching. Teachers on Special Assignment are experts in their specific content area and knowledgeable in the adopted curriculum. This is in addition to professional learning opportunities provided at our school site, through conferences, or at the district level. Additionally, new teachers are assigned mentor teachers (either site-based or district based) who are available to provide coaching, mentoring, and opportunities for our new teachers to observe more experienced teachers in action.

Teacher collaboration by grade level (kindergarten through grade eight [K-8]) and department (grades nine through twelve) (EPC)
Grade level teams meet regularly in their professional learning communities (PLC's) to review student work samples, discuss and align curriculum to the state and district standards, evaluate where the students are performing and decide what their first-time best teaching and reteaching strategies should be. This time ensures that veteran and developing teachers are using the same evaluative procedures while assessing student work samples.

## Teaching and Learning

Alignment of curriculum, instruction, and materials to content and performance standards (ESEA) The basic instructional program utilizes standards-aligned state adopted textbooks and/or instructional materials in the core four content areas: English Language Arts, Math, Social Science, and Science. Clovis Unified has adopted and approved a variety of materials that both align to the content standards, but that also meet the needs of our school sites and community. A full list of our adopted textbooks can be found on our school site's SARC found here:
https://www.cusd.com/sarc.aspx
In addition to the adopted textbooks and materials, CUSD utilizes Curriculum Design Teams (CDT) to produce additional materials that are standards aligned and support supplemental materials that have been purchased by school sites or the district.

Our English Learners (EL), Students with Disabilities (SWD), and students who move to an intervention program continue to receive core instruction while using the adopted instructional materials but are also provided with additional instruction using research-based materials that are aligned with the common core state standards, or in the case of our EL students aligned to the California ELD standards.

Adherence to recommended instructional minutes for reading/language arts and mathematics (K-8) (EPC)
The administration and teachers have worked collaboratively to create a daily schedule that ensures our students receive the recommended instructional minutes in all content areas.

Lesson pacing schedule ( $\mathrm{K}-8$ ) and master schedule flexibility for sufficient numbers of intervention courses (EPC)
Long-term and short-term pacing guides are created by each grade-level team based on the district's assessment calendar. These pacing guides outline the lessons for major content areas on a weekly basis and are modified throughout the year based on student needs. Sites develop intervention schedules based on data collected and analyzed in PLC's to determine an intervention calendar to meet the needs of students in tier 2 and Tier 3.

Availability of standards-based instructional materials appropriate to all student groups (ESEA) The Williams Act requires all schools to have adopted curriculum in the four core subject areas available to all students on a daily basis. This adopted curriculum is reviewed on a regular basis to ensure it is aligned to the stated standards and the district AIMS. In addition to having adopted curriculum in the four core subject areas (ELA, Math, Social Science, and Science), CUSD also has adopted ELD curriculum that is aligned to the State's ELD standards.

Use of SBE-adopted and standards-aligned instructional materials, including intervention materials, and for high school students, access to standards-aligned core courses (EPC)
SBE-adopted and standards-aligned instructional materials are utilized in the classrooms.
For more specific curriculum information please visit our school site link at the following site:

## Opportunity and Equal Educational Access

Services provided by the regular program that enable underperforming students to meet standards (ESEA)
Teachers regularly monitor students progress through assessments, observation and by analyzing work samples. This information is used by teachers to prepare an individualized plan for all students achieving below grade level expectations which then aides in the placement of intervention or acceleration--based on student needs.

Students in need of additional intervention resulting from academic, emotional or behavioral difficulties may be referred to SST where their needs are assessed, and they are linked with necessary intervention. Students struggling with attendance concerns may be referred to SARB, one-to-one counseling and student support groups based on specific needs with the school psychologist. When necessary, students may be referred to Fresno County Mental Health Services.

CUSD also offers a comprehensive summer school or extended year program designed to meet the specific needs of students K-12. A variety of extended year programs are offered for students at risk of retention, performing below proficiency and in need of credit for graduation.

Evidence-based educational practices to raise student achievement
Teachers and administration work together to continually provide first time best instruction and delivery. Training, collaboration, walk-throughs, and consistent feedback all provide research-based practices to raise student achievement. Professional learning communities (PLC's) review data, modify instruction, and provide intervention on a continuing basis so that students meet the standards.

## Parental Engagement

Resources available from family, school, district, and community to assist under-achieving students (ESEA)
Our site offers a variety of school and community resources to assist and support our families including:
*Parent communication through weekly newsletters
*Updated School Website
*Social Media Posts
*Referrals to outside resources as needed and based on needs
Additionally, we hold regular parent events and meetings to keep our families informed. These include:
*IDAC
*SART
*ELAC
*SSC
*Back to school night
*Open House
Our site also offers social emotional supports in collaboration with our school psychologists and area transition teams in order to ensure students are available for learning. These supports include CSI groups, transition supports, All 4 Youth, CYS referrals, and small group interventions.
The district also provides parent opportunities through the district parent academies which are offered six times throughout the school year and cover a variety of topics that were requested by families from within the school district.

Involvement of parents, community representatives, classroom teachers, other school personnel, and students in secondary schools, in the planning, implementation, and evaluation of ConApp programs (5 California Code of Regulations 3932)
Members of the School Site Council (SSC) - composed of principal, certificated teachers, classified staff, and parents - work together to develop, review, and evaluate school improvement programs and school budgets. The SSC meets quarterly throughout the school year.

## Funding

Services provided by categorical funds that enable underperforming students to meet standards (ESEA)
Categorical funds allow our site to provide supplemental services to enable under-performing students to meet grade-level standards. Our categorical funds are used for the following but is not limited to: bilingual instructional aides to support our ELD students, push-in teachers, supplemental instructional supplies, copies and equipment, technology equipment and supplies, and professional development for classroom teachers. Federal and state laws require the COE to monitor the implementation of categorical programs operated by local educational agencies (LEAs) or district. Districts are responsible for creating and maintaining programs that meet requirements.

Fiscal support (EPC)
In addition to categorical funds, our school receives funding through the Local Control Funding Formula (LCFF). The LCFF allows for sites to purchase additional items and provide additional supports for students with greater flexibility and allows us to address the priorities listed within our district Local Control Accountability Plan (LCAP) . LCFF funds will be used to help achieve the goals of the LEA and district while maintaining transparency and accountability in relation to how funds will be spent to provide high-quality and equitable educational programs for all students.

Additionally, our site receives monies through the district general fund. These funds are utilized to provide basic needs for students (ex. curriculum) and to purchase other items that support our district goal of supporting students in mind, body, and spirit.

## Educational Partner Involvement

How, when, and with whom did the school consult as part of the planning process for this SPSA/Annual Review and Update?

## Involvement Process for the SPSA and Annual Review and Update

Both our SSC and our ELAC play a critical role in the creation and revisions of our SPSA.
Throughout the year, we regularly revisit our SPSA at our SSC meetings by discussing the budget and goals, student achievement, available supports, etc. At our most recent SSC and ELAC meetings, our SPSA monitoring tool was reviewed with our committees to allow them to see where we were with last year's goals, where we see continued gaps, and where we have identified wins in achievements. The two committees then discussed next steps and needed changes as well as made recommendations to site administration for the new SPSA.

The following recommendations were made: Increased amount of intervention across grade levels using multiple monitoring techniques to track student growth within intervention groups.

3. Our lowest domain is the speaking domain

## School and Student Performance Data

## Student Population

For the past two years, many state and federal accountability requirements were waived or adjusted due to the impact of the COVID-19 pandemic on LEAs, schools, and students. Beginning with the 2021-22 school year, the requirements to hold schools and districts accountable for student outcomes has returned with the release of the 2022 California School Dashboard (Dashboard). The Every Student Succeeds Act is requiring all states to determine schools eligible for support. Similarly, under state law, Assembly Bill (AB) 130, which was signed into law in 2021, mandates the return of the Dashboard using only current year performance data to determine LEAs for support. Therefore, to meet this state requirement, only the 2021-22 school year data will be reported on the 2022 Dashboard for state indicators. (Data for Change [or the difference from prior year] and performance colors will not be reported.)
This section provides information about the school's student population.

1. Freedom's largest sub groups of students are Hispanic, White and Asian.
2. We have a very small Pacific Islander subgroup
3. Our SED population is at about $40 \%$

## School and Student Performance Data

## Overall Performance

Due to the COVID-19 pandemic, state law allows the 2022 Dashboard to only display the most current year of data (also known as Status). For this year only, performance levels will be reported using one of five Status levels (ranging from Very High, High, Medium, Low, and Very Low) for state measures. Please note that the Status levels associated with the Chronic Absenteeism and Suspension Rate Indicators are reversed (ranging from Very Low, Low, Medium, High, and Very High). Information regarding this year's Dashboard data is available within the Dashboard Communications Toolkit.

Because performance on state measures is based on current year (i.e., 2021-22) results only for the 2022 Dashboard, the color dials have been replaced with one of five Status levels (ranging from Very High, High, Medium, Low, and Very Low).

## Conclusions based on this data:

1. Due to having less than 30 EL students, we do not have indicator level for this area
2. Of our 29 EL students, $62 \%$ are making progress towards English language proficiency
3. 27 of our EL students maintained their ELPI level or grew at least one level

## School and Student Performance Data

## Academic Engagement Chronic Absenteeism

Due to the COVID-19 pandemic, state law allows the 2022 Dashboard to only display the most current year of data (also known as Status). For this year only, performance levels will be reported using one of five Status levels (ranging from Very High, High, Medium, Low, and Very Low) for state measures. Please note that the Status levels associated with the Chronic Absenteeism and Suspension Rate Indicators are reversed (ranging from Very Low, Low, Medium, High, and Very High). Information regarding this year's Dashboard data is available within the Dashboard Communications Toolkit.

Because performance on state measures is based on current year (i.e., 2021-22) results only for the 2022 Dashboard, the color dials have been replaced with one of five Status levels (ranging from Very High, High, Medium, Low, and Very Low).

This section provides number of student groups in each level.

## LEA/LCAP Goal

Aim I: Maximize Achievement For ALL Students
The District will provide a high-quality educational system for ALL students focusing on mind, body, and spirit by using engaging instruction, rigorous curriculum, and systematic intervention to ensure college and career readiness

## Goal 1

To have 60\% of the students achieve the Standard Met and Standard Exceeded levels for grades 36 on the ELA portion of the state SBAC. Student in grades Kindergarten, 1st, and 2nd to achieve 85\% mastery on the CUSD Year-End ELA Assessment.

## Identified Need

Refining our PLC data tracking and increase intervention supports through hired intervention teachers.

## SPSA Year Reviewed: 2022-23

Respond to the following prompts relative to this goal. If the school is in the first year of implementing the goal, an analysis is not required and this section may be deleted.

## ANALYSIS

Describe the overall implementation of the strategies/activities and the overall effectiveness of the strategies/activities to achieve the articulated goal.
Professional development was provided through district trainings and staff meetings. While extended learning opprotunities were made available for at risk students, due to the lack of sub coverage intervention strategies were minimal until the spring.

Briefly describe any major differences between the intended implementation and/or the budgeted expenditures to implement the strategies/activities to meet the articulated goal.
With staff shortages and continually absences our interventions were modified based on the ever changing needs of our students and staff.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.
Intervention teachers will be started in late September to maximize intervention times. An additional intervention teacher will be hired to help meet our student's current needs.

## School Site Council Membership

California Education Code describes the required composition of the School Site Council (SSC). The SSC shall be composed of the principal and representatives of: teachers selected by teachers at the school; other school personnel selected by other school personnel at the school; parents of pupils attending the school selected by such parents; and, in secondary schools, pupils selected by pupils attending the school. The current make-up of the SSC is as follows:

## 1 School Principal

3 Classroom Teachers
1 Other School Staff
5 Parent or Community Members

| Name of Members | Role |
| :--- | :--- |
| Nicholle Gonzalez | Parent or Community Member |
| Taylor Greenberg | Classroom Teacher |
| Shushan Vardanyan | Parent or Community Member |
| Laurel Graves | Principal |
| Katie Aiello | Other School Staff |
| Stacy Kraus | Parent or Community Member |
| Nina Gaeta | Classroom Teacher |
| Jennifer Hales | Passroom Teacher |
| Cori Murphy | Parent or Community Member |
| Brooke Berrios |  |

At elementary schools, the school site council must be constituted to ensure parity between (a) the principal, classroom teachers, and other school personnel, and (b) parents of students attending the school or other community members. Classroom teachers must comprise a majority of persons represented under section (a). At secondary schools there must be, in addition, equal numbers of parents or other community members selected by parents, and students. Members must be selected by their peer group.

## Recommendations and Assurances

The School Site Council (SSC) recommends this school plan and proposed expenditures to the district governing board for approval and assures the board of the following:

The SSC is correctly constituted and was formed in accordance with district governing board policy and state law.
The SSC reviewed its responsibilities under state law and district governing board policies, including those board policies relating to material changes in the School Plan for Student Achievement (SPSA) requiring board approval.

The SSC sought and considered all recommendations from the following groups or committees before adopting this plan:

## Signature Committee or Advisory Group Name

The SSC reviewed the content requirements for school plans of programs included in this SPSA and believes all such content requirements have been met, including those found in district governing board policies and in the local educational agency plan.

This SPSA is based on a thorough analysis of student academic performance. The actions proposed herein form a sound, comprehensive, coordinated plan to reach stated school goals to improve student academic performance.

This SPSA was adopted by the SSC at a public meeting on 5/18/23.
