# HEALOW FAQ

### Q: I noticed some of my demographic information is wrong, how do I update this?

**A**: If you are a Clovis Employee contact your HR department to update any demographic information. If you are a Dependent, Spouse, or Retiree please contact HNAS at **1-855-323-1124** to update your information.

## Q: What if I can't find an appointment on the day I want?

A: In order to keep consistent and reliable appointment times, miCare Health Center generally sees patients by appointment only. If you need to be seen for an urgent issue, please call **1.559.327.2873** to see if there are any cancellations or sick appointments available. At times, the schedule cannot account for any additional appointments, and the miCare team apologizes if you are not able to get in on the day you request. Please use the Healow App or Patient Portal to find another time that is available.

## Q: What if my app isn't working, how else do I schedule an appointment?

A: The Healow App is used by many different organization s and at times you may experience technical difficulties. While we address these you can schedule an appointment by going to **health.healow.com/micare** or by calling **1.559.327.2873** and selecting **option 2** 

# Q: I can't remember my login or need help, can I call someone?

**A:** In the Healow App, if you type in your username and password and it is incorrect, you can select **Reset Credentials**, and select if you need to reset your username or password. An email will be sent to you with updated credentials.

You can also go to health.healow.com/micare and select Trouble Logging In, to reset the password online.
