

Slider Images

Last Updated 9/12/19

Guidelines for Slider Images in Your Banner

- Only have a total of about **6 images** in your slider rotation.
- Make sure images are clear and of the highest quality you have available.
- Image must be horizontal to fit in the space provided.
- Check your school's information for child permission on the website.
- Be sure to update photos so that they represent the current year.

This page has been updated with an additional step: Image Rotation (optional).

You can bypass this step after you upload your image.

Be sure and CROP your image to optimize its view in the slideshow.

STEP 1: Upload Your Image (Rotate is Optional)

Browse for your image. Then click Upload.

Choose File No file chosen

Upload

Cancel

Go To STEP 2: Crop & Save

Go To STEP 2: Crop & Save

You now have the ability to rotate photos!

****I still recommend uploading high quality horizontal photos, but if they load the incorrect way, you have the ability to alter and correct that.**

Go to Step 2: Crop & Save

[Return To Photo List](#)

Photo Title:

Photo Caption:

Optional Link URL:

Required ALT text:

Crop image to optimize

Image will be constrained to 1280x500
Example of Cropper Tool

[I added ALT text and cropped my image ✓](#)[Download this image](#)

This will show up on top of the photo if it requires a description, such as: "Valley Champs!"

You can also leave it blank!

****Don't write the same information in the title and caption. It will appear as a duplicate.**

Want users to be taken to a web page in or outside your website? Place the link here and users will be taken to that site when clicking on the photo.

Describe your photo for ADA compliance.

You will not be able to upload unless this step is complete.

Optional Link URL:

Required ALT text:

Required ALT text for ADA

Crop image to optimize

Image will be constrained to 1280x500

Example of Cropper Tool

DON'T FORGET TO CROP YOUR PHOTO! This will make sure it fits inside your slider.

Hover your slider over the image and see that your cursor changes to a cross + rather than a pointer.

Hold the + and drag over the photo to "crop" the image to the slider size.
***Make sure your subject matter is in the center of the cropped photo.

Click the I added ALT text and cropped my image.

Then a SAVE button will appear.
